

Environmental Policy Statement

Rose Property Services is a landscape maintenance and general cleaning company specialising in applications for these services. The Company has been trading since 1985 and with its team of qualified employees' supplies services to clients in and around the West London Region and associated Home Counties.

Rose Property Services is very conscious of how the company's activities will interact with the environment when undertaking its duties and strive to continually improve its operations to reduce that impact. A determined effort has been made to explore the viability of introducing products that are environmentally friendly and a service that promotes environmental improvement.

Fundamental to our Environmental Policy is the commitment of both management and employee's to improve environmental performance. Within the policy we have assigned organisational responsibilities and incorporated a process for being able to evaluate and assess the environmental effects of the targets and objectives set out in the policy documents.

The objective of this Environmental Policy is to operate with the minimum possible impact on the environment. In order to achieve this, our policy is to:

- Demonstrate our commitment to the highest environmental safety standards
- Work towards ISO14001 Standard for environmental management
- Use products which consist of the most environmentally friendly materials available and which will have the minimum possible environmental impact
- Use recyclable materials where possible and where appropriate
- Monitor our fuel and energy usage for maximum efficiency and aim to continuously reduce that consumption
- To prevent pollution we continuously monitor the proper use and safe storage, handling, transportation and management of all of our business waste
- Provide information to customers on environmental issues
- Comply with Environmental Legislation and co-operate fully with the enforcing authorities and any other interested parties

Rose Property Services acknowledges that individually and as a Company we are responsible for the impact that it has on the environment. Therefore, it is our intention to communicate openly and consult with any interested parties on environmental issues, stakeholders, our neighbours, the local community, regulators, suppliers and our customers and include environmental briefings in team meetings to raise awareness of environmental issues.

This Policy will be continuously monitored and will be reviewed on an annual basis
